JavaScript – Basic

Portfolio

GitHub

https://github.com/YongQ02

Here is a brief description of what content inside my repo.
- Python – Record while learning several of python modules.
- Git – A environment to learning Git using PowerShell.
- YongQ02 – Add a profile README to tell other people about yourself

Research of OpenAI

This is simple research about OpenAI, the requirement programming language is Python. Besides, the develop environment I use is Google Collaboratory.

Tutorial: Computer Shop Program   Semester 2, September 2023

Here is a brief description of what I did for Computer Shop Program.
- This program allows users to query items, make selections, and display total balances. And loop, it is a simple shopping program.
- The project was developed by using only JAVA.
- The project development took 2 days.
